1st ↔ ALWAYS ↔ Best

Your Health and Wellness *GPS*

WHO WE ARE

Vision

We aspire to be a leading provider of Occupational Health and wellness services, recognised for our unwavering commitment to excellence and compassionate care.

Mission

To be your occupational health linguist
Our mission is to facilitate an optimal healthy and productive workforce, with proactive prevention, early detection, and tailored interventions through comprehensive, holistic occupational health and wellness assistance to individuals and workplaces

Core Values:

- **Passionate** - Our drive is contagious because we love what we do
- **Integrity** - Healthcare that honours your trust
- **Experience** - The occupational experience and expertise shared assists in protecting your employees and operations throughout the different industry sectors
- **Respect** - Allow us to translate, interpret and implement to ease your frustration in meeting legislative stipulations and inspection requirements.
- **Excellence** - Our commitment to continuous learning, innovation and evidence-based practises ensures excellence in medical surveillance service delivery

WHAT YOU GAIN

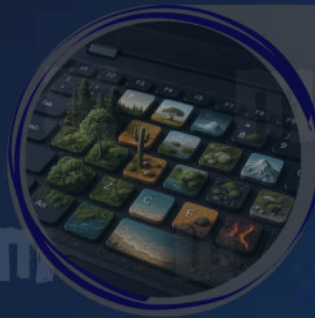

Professional and Caring Medical Team

Driven by a deep commitment to serve, we tailor our approach to meet each client's specific requirements, from small remote locations to the extensive and established.

Solution driven

Our solutions combine various service elements to cover diverse settings, ensuring highest quality and efficient operations. Our team conform to the highest standards and accreditations.

Modern Technology and On Site medicals

Our onsite service delivery method assists with awareness, increased productivity, reduces healthcare expenditure, decreased absenteeism, overall improved health and higher morale.

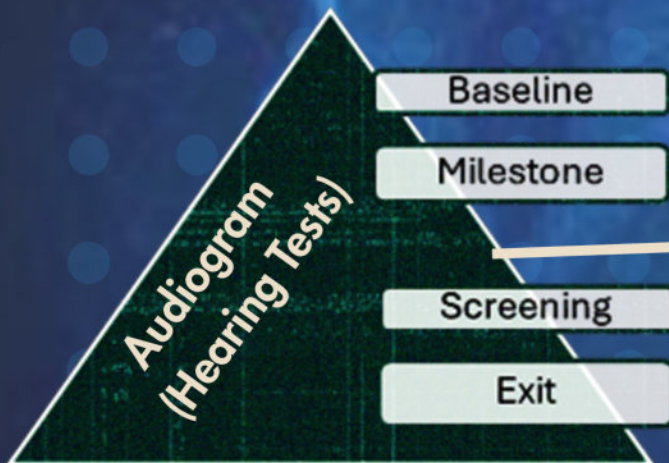

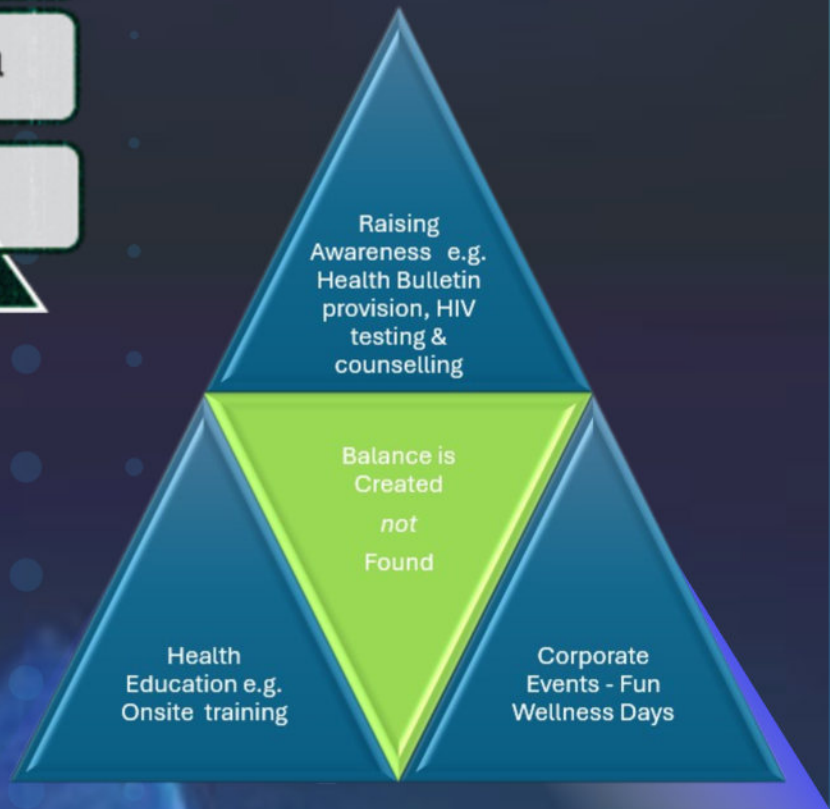

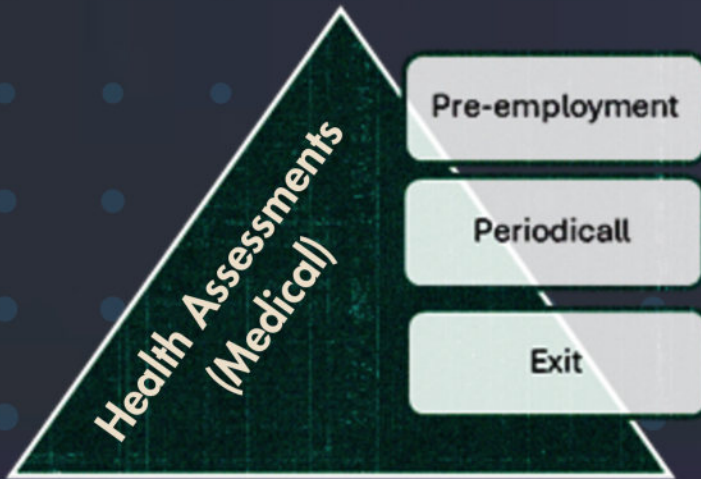

Customer orientated service

Services can be engaged as a stand-alone when required or in combination within an agreed period.
